

Abstract Template for Research Conclave 2016 (sample)

A. Author¹, B. Author² and C. Author¹

¹ Department of Electronics & Electrical Engineering, IIT Guwahati, India

² Centre for Energy, College of Engineering London, England

E-mail: *abc.author@iitg.ernet.in*

The extended abstract should be produced with MS-Word or LATEX. For both formats, templates are provided on the Research Conclave 2016 web page (<http://iitg.ac.in/researchconclve2016/>). Other word processing systems can also be used; in that case, they are encouraged to follow the recommendations given in this example. The maximum allowed size is 1 page, inclusive of references, tables and figures. The text should be formatted in A4 format (210 mm x 297 mm), with single spacing, font "Arial", size "10" and page margins of "15 mm" on the left and right sides.

A caption must be provided below each figure and table. Figures and tables must be numbered as shown in the examples below (see figure 1 and table 1). If you have any images in color, it is always good practice to print your paper out in black and white to ensure that the tones and screens used in your figures reproduce well in black and white, but your images will appear in full color in the electronic proceedings. Images in your document should be at least 300 or 600 dpi for quality reproduction. This is an example of a table.
