(Interaction with industry
delegates, startups and
academicians)

'INNOVATEUR PLATE-FORME'
(Startups incubation)

ABOUT RESEARCH CONCLAVE:

Research Conclave is an event organised by the Students' Academic Board (SAB) of Indian Institute of Technology Guwahati (IITG). It started in 2015 with great rhythm and passion, and this year with the same enthusiasm, we are conducting this event in a broader spectrum. Research Conclave is a staunch platform to nurture the young minds towards research, innovation and entrepreneurship which intends to bring the integrity of the students towards both industries and academia to redress the academic research challenges, concerns of the entire student community and upcoming entrepreneurs around the globe. It is a forum to harness innovative minds of current society by taking innovations made in research to their real/actual implementation in the industries. The Research Conclave works as catalyst for building leaders through holistic, transformable and innovative ideas.

OBJECTIVE:

- Showcase the ongoing research activities of different institutes / universities / colleges across the country.
- Model exhibition by research groups from premier institutes and universities across the country.
- Industry-academia interaction with industrial delegates highlighting their technological requirement, expectations from research institutes.
- Interactive sessions with entrepreneurs across the globe to identify the avenues through local firms, businesses and other intermediaries through innovation and research.
- A prestigious platform for start-ups to exhibit their products and ideas to industries and academia.
- A good platform for industries to identify highly intellectual, motivated and enthusiastic students for their firms.
- Technological implementation towards sustainable development and encouragement to student community for pursuing higher studies.
